

To Whom It May Concern:

Janet Fuchs was introduced to me when she first began her business, when she came to my home to watch the routine of caring for my dogs and cat. She was warm and caring toward me and the animals I was entrusting in her care. She had a large number of dogs to feed, walk and love and she was enthusiastic to care for them. She followed through the next day with an e-mail on questions of their care and reassurance that they were in good hands. I was pleased with their care and condition after her first visit and have employed her several times since. Each time, she follows through with a confirming e-mail as to any changes in the routine and she has been able to accommodate me on two emergency situations with a pleasant and concerned manner. The dogs are always well cared for and seem content when I arrive home. My house is left clean and organized, and she is in contact with me while I am away to assure me that all is running well. Janet is a pleasure to work with and I feel confident in referring her to anyone interested in quality care of their animals.

I will be happy to answer any questions.
